### About Software

An optimized search protocol-based Web-Application for **BNBC** (Bangladesh National Building Code 2015) and Imarat Nirman Bidhimala 2008 that is going to feature the regulation of the building construction and land related laws. Additionally, this App will have the FAR (Floor Area Ratio) Calculator, Material and Cost Estimator and Unit Convertor. This paperless information directory will directly benefit the entire building construction industry and the citizens of Bangladesh.
